REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to a galvanic cell comprising a cathode comprising a first vesicle; an anode comprising a second vesicle; wherein the first vesicle, second vesicle or both comprise benzoquinone or hydroquinone.

The prior art, such as Anderson et al. teaches the use of hydroquinone to precondition manganese dioxide for electrochemical cells. However, the reference is silent to one or more of the electrode vesicles comprising benzoquinone or hydroquinone.

Double Patenting

The Terminal Disclaimer filed July 11, 2005 has been received and the double patenting rejection is withdrawn.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
